

ANIL SUTHAR

FULL-STACK DEVELOPER

[+918441937079](tel:+918441937079) | aniljangid6199@gmail.com | github.com/aniljangid111 | www.linkedin.com/in/anil-suthar

SUMMARY

Highly skilled and passionate Full Stack Developer with expertise in crafting dynamic and responsive web applications. Proficient in React.js, Next.js, Node.js, and MongoDB, leveraging modern front-end frameworks (Bootstrap, Tailwind CSS) and back-end technologies (Express.js) to deliver seamless user experiences. Experienced in cloud deployment with AWS (EC2, S3, CloudFront) and Vercel, ensuring scalable and efficient solutions from concept to production.

TECHNICAL SKILLS

HTML/HTML5	Next.js	Express.js
CSS/CSS3	Tailwind CSS	Node.js
JavaScript	Bootstrap	MongoDB
Reactjs	Git & GitHub	Mongoose

INTERNSHIP WORK EXPERIENCE-9(MONTH)

Ws Cube Tech (JODHPUR)

Dec 2024 - Sep 2025

- Developed and maintained user interfaces using Next.js, React.js, HTML, CSS, and JavaScript.
- Collaborated with designers to implement responsive and accessible web designs.
- Explored ways to visualize GitHub collaboration in a classroom setting.
- Leveraged Bootstrap and Tailwind CSS to accelerate development of modern, responsive user interfaces.
- Built backend APIs with Node.js/Express and connected them to React.js/Next.js frontend for real-time data rendering.

EDUCATION

Lachoo Memorial College of Science & Technology
Bachelor of Computer Applications (BCA)

Aug 2022 - 2025

AREA OF EXPERTISE

- **Languages:** JavaScript, HTML5/CSS3,
- **Frameworks:** Next.js, React.js, Express.js, Bootstrap / Tailwind CSS , Node.js
- **Libraries:** Redux , Axios , Mongoose , React Router
- **Databases:** MongoDB
- **Developer Tools:** VS Code, Git, GitHub, npm , Chrome DevTools , Cursor

PROJECTS

Mini E-Commerce Web App – React.js, Bootstrap, Firebase

Built a responsive mini e-commerce website with product search, category filtering, and sorting. Integrated Firebase for user authentication (email & Google) and real-time cart/wishlist features. Fetched dynamic product data via API and deployed using Vite on GitHub Pages. [E-Commerce Web App \(Git\)](#)

Nike Homepage UI Clone – HTML, CSS, Bootstrap

Developed a responsive clone of Nike's homepage using only HTML, CSS, and Bootstrap. Focused on clean layout, modern UI elements, and mobile-first responsive design. [NikeClone \(Git\)](#)

Weather App – HTML, CSS, JavaScript

A responsive web app that fetches and displays real-time weather data using APIs. Built with React.js, HTML5, and CSS3. [WeatherApp \(vercel\)](#)
